For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Motivated to offer the highest level of value and service to our customers, Clark remains on the leading edge when it comes to improving output and benefiting performance.

Worldwide, Clark has one of the most amazing supplier support networks. With over 550 locations worldwide, supplier representation in over 80 countries and 230 locations in North America, their high level of commitment to their customers predominates the materials handling market.

Clark proudly remains an innovative leader of the industrial equipment industry, pioneering protection features such as the operator restraint system. This exceptional commitment to safety is at this time a standard feature on every forklift.

Clark has a uncompromising goal to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. [Clark parts](#), is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its production facilities. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any environmental limitations, thus placing them in a dominant market position.

Clark has chosen the extremely economical and beneficial structure of "Lean Manufacturing" for its assembly facilities and use of resources. This structure was established to acknowledge the most effective approaches of production facility stewardship and ensuring maximum efficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to perfect the effectiveness and brilliance of their products while minimizing costs. The contemporary value engineering agenda combines modern product development and offers superior consumer support and service within the industry.
