

Forklift Spreader Bars

Spreader Bar for Forklifts - ELME has been proudly operating ever since the year 1974, becoming the biggest independent spreader company all-around the world. They are a dedicated manufacturer of spreaders meant for a lot of several applications such as the handling of containers, swap bodies and trailers.

Engineering is done in-house by way of making use of all the newest FEM tools and CAD systems. The ELME company presently employs more than 125 workers. Their spreaders are supplied to reach ship-to-shore cranes, stackers, straddle carriers, lift trucks, gantry and quayside all-over the world.

The ELME product collection offers spreaders intended for various trailer and container handling operations. Several of their inventory comprise: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes and a huge variety of attachments.

ELME manufacturing and production is done in a highly automated purpose built factory. In 2008, they created over one thousand one hundred fifty spreaders by making use of high quality elements to ensure reliability and excellent standards while offering competitive prices. Major features of ELME comprise design simplicity, market response and innovative modular spreader concept.
