

Meritor Parts

Meritor Part - Meritor is a leading global dealer which is proudly founded on a 100 year tradition of quality and service. They focus on different modules, integrated systems and parts to original equipment manufacturers and the aftermarket for the industrial and transportation trades.

Meritor prides itself in the company's distinctive energy and thinks that this energy contributes to their competitive advantage in the international operations. The company values all of their customers and would like to ensure their success while anticipating their different requirements. Meritor begins with a culture which values diversity of individuals and their broad thought processes. Operating in 19 nations and employing over 11,200 individuals, Meritor encourages collaboration and innovation amongst a team of knowledgeable professionals.

Meritor strongly believes in just employing future focused staff. These top-caliber workers can rapidly get used to to changing environments and freely demonstrate the level of commitment and performance required in order to obtain results for the competitive market environment. The company empowers their teams to make sound business decisions in order to enhance the overall success of the business. In return, Meritor provides their employees various possibilities for professional and personal growth.

Their Advanced Engineering team is at the forefront of parts and system engineering which comprise axles, drivelines, braking and suspension systems for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is also responsible for supporting the needs of all their worldwide engineering employees.

The Quality team at Meritor is a dynamic and customer-focused group that is devoted to ensuring optimum development at their production plants and aftermarket distribution facilities which are situated on 5 continents and in 19 nations.

They have their supplier network that is specifically situated so as to support the development of the business. Each and every regional team has globally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making within each aspect of the company. The DFSS or also known as Design for Six Sigma ensures product reliability within each and every region. The team is also included transactional Green Belts who use Six Sigma tools to business techniques and apply lean techniques.
